WOMAN AT THE DOOR
LAST FAREWELL

THANK YOU VERY MUCH

If we were to raise the maximum amount of money, we obviously had to spend the minimum amount and we would like to thank the many kind friends who helped us to keep our expenses down. Our warmest thanks, then, to our advertisers, to the people who loaned us equipment, to the ladies who prepared and served refreshments, to those who sold programmes, tickets and displayed posters, and last but by no means least

TO OUR AUDIENCE

THANK YOU VERY MUCH

Muscular Dystrophy is a progressive disease in which the muscles waste away, resulting eventually in the complete loss of muscle power, when the victim, usually a young boy, finds himself totally unable to move.

Much research is already being carried out, and much more will be needed, into this tragic disease, for which there is at present no cure.

Donations may be sent to The Muscular Dystrophy Group of Great Britain, 26, Borough High Street, London, S.W.1.
