

Frank & Jimmy

All of East Meon is sad that, of necessity, you are closing the Post Office & Riverside Stores. In fact, your fame has spread far & wide. The Badage daughter lives in New York, & she came over leaving her children behind, one time, so she asked them what they would like her to bring them back from England, & the answer was "any thing from Jimmy's little shop. My own grandchildren, from nearby & Switzerland all want to come here for something - & the youngest so that she can see Father Christmas!

We should like to give you a small thank you, for your helpfulness, & cheerfulness, & warm feeling when we've come in. We just hope this will go part way to show you that the village does care, & that we will, all of us, miss you & these premises which have become such a hub for the village over the last 6 1/2 years.
